## **ICT Unbounded, Social Impact of Bright ICT Adoption**

Yogesh Dwivedi  
2019-06-11 This book constitutes the refereed proceedings of the IFIP WG 8.6 International Working

Conference "ICT Unbounded, Social Impact of Bright ICT Adoption" on Transfer and Diffusion of IT, TDIT 2019, held in Accra, Ghana, in June 2019. The 30 revised full papers and 4 short papers presented were carefully reviewed and selected from 72 submissions. The papers focus on Bright Information and Communication Technology, a concept that entails the development of relevant technologies, business models, public policies, social norms, international agreements, metrics of measuring national progress and preventing undesirable activities on the Internet. They are organized in the following topical sections: technology adoption, diffusion and ubiquitous computing; big data and business intelligence; smart cities; and security, privacy, ethics and misinformation.

*Governance Failure and Reform Attempts After the Global Economic Crisis of 2008/09* Leonid 2014-04-15  
The global economic crisis of 2008/2009 has had a broad impact far beyond economic concerns. Most importantly, it has been seen as a crisis of governance and debates have not just questioned specific regulations, e.g. of global financial markets, but have additionally challenged the appropriateness of underlying governance concepts not only in global markets, but also at the national level. For the post-socialist countries, which adopted market-oriented governance mechanisms less than two decades ago, the global crisis was the first stress test after the post-socialist recovery. The contributions in this book focus on the impact

of the crisis and related reform attempts in two important areas. The first area is financial and monetary policy, which is at the core of the global crisis of 2008/2009. The second area is relations between business and state actors, where corruption and weak institutional frameworks can both seriously hamper reform attempts. The volume comprises essential contributions on how the post-socialist countries have tried to cope with the first global economical crisis they saw themselves confronted with.

[Digital Review of Asia Pacific 2007/2008](#) Idrc, 2008-01-07  
The Digital Review of Asia Pacific provides an overview of how information and communication technology (ICT) is being diffused throughout the Asia Pacific region to facilitate socio-economic development. This third annual review provides an analytical overview of the state of ICT4D in the Asia Pacific region. It covers 31 countries and economies including - for the first time -

North Korea. Each country is dealt within a separate chapter, which attempts to provide comprehensive coverage of the various aspects of ICT4D in the concerned country at the time of writing (in 2006). The chapters have been written by a team of authors representing different sectors, such as government, academia, industry, and civil society.
