**Neck and Neck to the White House** Robert E. Kelly 2014-01-10 Close presidential elections in the United States are measured, evaluated and remembered primarily by simple statistics. One can easily find out, for example, how many states in the electoral college were won by each presidential candidate, and by how much. But to stop there is to miss the most dramatic parts of the political contests. Why were the votes so close? What issues split the electorate? Was it the behavior or the reputation of the candidates? This book answers these questions and more, identifying and examining 12 of the closest elections, from the 1796 battle between John Adams and Thomas Jefferson to the contested 2000 election between George W. Bush and Al Gore.

*Their Greatest Victory* David L. Porter 2013-07-30 This book profiles 24 athletes who overcame seemingly insurmountable medical odds to attain athletic success. Each profile describes the athlete's problem, the medical issues he or she faced, how success was achieved despite the setback, and the personal qualities that helped the athlete to prevail. Part I features 15 athletes who dealt with diseases and physical disabilities, including Babe Didrikson Zaharias (cancer), Ron Santo (diabetes), Gail Devers (Graves' disease), Alonzo Mourning (kidney disease), Wilma Rudolph (polio), Scott Hamilton (a pancreatic disorder in childhood) and Jimmy Abbott (born with one hand). Part II highlights nine athletes who dealt with near-fatal or life-changing accidents and injuries, including Bill Toomey, Three-Finger Brown, Greg LeMond, Lou Brissie and Tommy John.
