## **Teaching Argumentative Writing to Twelfth Grade Students**

## **Resources in Education** 1994-06

**Writing Skills** Cambridge Educational Services 1998  
Developed on the premise that every adult has different learning needs, the Cambridge GED Program offers a flexibility unmatched by any other program. Adults may work solely within the Comprehensive Book, since it's packed with all the GED preparation tools they need -- more test-taking practice than any other program on the market, a variety of test taking tips, writing activities throughout, a complete essay writing section, and so much more. Learners who may need even further instruction in a particular content area can turn to any of the five satellites for more in-depth instruction.

Each satellite is accompanied by a helpful Exercise book that offers extra support for each subject. What's more, the entire program is easy to navigate through. Progress charts help adults identify areas where more instruction is needed, and all the components are correlated for easy access! GED test-taking skills are presented throughout the text. Grammar section includes usage, sentence structure, mechanics, and editing. Special section on Writing Skills, Part 2: The Essay integrates the stages of process writing with high-interest GED-style topics. The Cambridge GED Program Exercise books correlate directly to the Satellites, and supply adult learners with an abundance of practice in Social Studies, Science, Interpreting Literature and the Arts, Math and Writing. With up-to-date information, the Exercise book enables learners to become familiar with the GED style and

actual test format. They present plenty of graphs that clarify concepts. There are detailed answers and explanations for every exercise and test item.

**Practical Ideas for Teaching Writing as a Process at the Elementary School and Middle School Levels** Carol Booth Olson 1996

**Validating Holistic Scoring for Writing Assessment** Michael M. Williamson 1993  
Focusing specifically on holistic scoring, this text looks at issues surrounding the assessment of writing, looking at its social, historical and theoretical context, and questioning what is really meant by good writing.

Contemporary's Scoring Guide for the GED Assessment Program 1988

Advances in Computerized Scoring of Complex Item Formats Brian E. Clauser 2014-07-16 This special issue was motivated by the move from research to operations for computerized delivery and scoring of complex constructed response items. The four

papers presented provide an overview of the state of the art for such applications. The issue begins by describing the range of computer delivered formats and computerized scoring systems that are currently in use. The remaining papers provide three views of validity in the context of computer delivered and scoring assessments. It is hoped that together, these articles will provide the reader with both an appreciation of the state of the art for computer-automated scoring systems, as well as a perspective on the issues that must be considered and the evidence that must be collected to produce automated scoring systems that allow for valid inference.
