questions, covers the following topics: Matter,

Light, Energy, Life Science, and Earth Science If you are homeschooling (or if you are just trying to get extra practice for your child), then you already know that science workbooks and curriculum can be expensive. HomeSchool Brew is trying to change that! We have teamed with teachers and parents to create books for prices parents can afford. We believe education shouldn't be expensive. The problem portion of the book may also be purchased individually in "Second Grade Science (For Homeschool or Extra Practice)."

English Corpora under Japanese Eyes

2016-08-09 English Corpora under Japanese
Eyes is a fine collection of papers written in
commemoration of the 10th anniversary of the
Japan Association of English Corpus Studies
(JAECS). Beginning with the overview of the
field by Stig Johansson, an honorary member of
the JAECS, the present volume shows the state-
of-art in English corpus studies in Japan and
demonstrates the creative uses of corpora in a
wide range of research topics from studies
drawing on large-scale general corpora, such as

British National Corpus and the Bank of English,
to studies based on more specific, historical,
literary, learner and parallel corpora. The papers
incorporated in this anthology are grouped into
five sections: 1) Overview of corpus-based
studies, 2) Corpus-based studies of
contemporary English, 3) Historical and
diachronic studies of English, 4) Corpus-based
studies in English literature, 5) Corpus and
English language teaching. This volume will
inspire still further corpus exploitation in the
broader field of the humanities.
