Grade 5, Report 2002

The Power to Persuade Sally De Witt Spurgin 1993-08 For second-semester freshman composition courses as well as for courses in Argumentative Writing/Critical Thinking, and Persuasion. A complete rhetoric and reader in one volume, this text prepares students not only to evaluate a written argument, but to construct logical, well-supported written arguments of their own.

Resources in Education 1992-07

Supporting K-12 English Language Learners in Science Cory Buxton 2016-11-18 The contribution of this book is to synthesize important common themes and highlight the unique features, findings, and lessons learned from three systematic, ongoing research and professional learning projects for supporting English learners in science. Each project, based in a different region of the U.S. and focused on different age ranges and target populations, actively grapples with the linguistic implications of the three-dimensional learning required by the Framework for K-12 Science Education and the Next Generation Science Standards. Each chapter provides research-based recommendations for improving the teaching of science to English learners. Offering insights into teacher professional learning as well as strategies for measuring and monitoring how well English learners are learning science and language, this book tells a compelling and inclusive story of the challenges and the opportunities of teaching science to English learners.

Think It, Show It Mathematics Gregory A. Denman 2013-06-01 Help students put their thinking onto paper with step-by-step strategies that develop concise writing and discussion skills. Students learn how to express themselves mathematically, think conceptually, and gain essential critical-thinking skills.

5th Grade Math Test Release
