The Diagnosis of Reading in a Second or Foreign Language J. Charles Alderson 2014-10-03 The Diagnosis of Reading in a Second or Foreign Language explores the implications of language assessment research on classroom-based assessment practices by providing an in-depth look at the little-examined field of diagnosis in second and foreign language reading. This volume examines the development of second and foreign language reading and how subsequent research findings, couched in this knowledge, can help facilitate a more-informed teaching approach in second and foreign language classrooms. By contextualizing the latest in classroom settings and presenting implications for future research in this developing area of linguistics, this book is an ideal resource for those studying and working in applied

linguistics, second language acquisition, and language assessment and education. About the NPLA Series: Headed by two of its leading scholars, the series captures the burgeoning field of language assessment by offering comprehensive and state-of-the-art coverage of its contemporary questions, pressing issues, and technical advances. It is the only active series of its kind on the market, and will include volumes on basic and advanced topics in language assessment, public policy and language assessment, and the interfaces of language assessment with other disciplines in applied linguistics. Each text presents key theoretical approaches and research findings, along with concrete practical implications and suggestions for readers conducting their own research or developmental studies.
