Career Development, Employment, and Disability in Rehabilitation David Strauser 2013-09-17 This text provides, from a rehabilitation perspective, comprehensive coverage of the dominant theories and techniques related to the occupational development, vocational behavior, and the organizational factors that impact the career development and employment of individuals with disabilities. It is designed for the CORE-mandated required course on employment and career development for the Master's Degree in rehabilitation counseling and for Licensed Professional Counselor certification. As the only book in rehabilitation and counseling that broadly addresses career development and employment of individuals with disabilities, it is a major contribution to the literature. Topics covered include major constructs in career development and employment of disabled individuals, theoretical foundations, occupational assessment, information and evaluation, intervention strategies, and populations and settings. To facilitate learning and promote application of theories and techniques, each chapter includes chapter objectives, discussion and review questions, and case studies. An instructor's manual is also included. Key Features: The only book in rehabilitation and counseling to provide comprehensive coverage of career development and employment and disability-related theory and research Fulfills CORE-mandated requirements and Professional Counselor licensure Authored by respected leaders in the field Provides chapter objectives, case examples, and discussion questions in each chapter along with instructor's manual

Psychological Assessment in the Workplace Mark Cook 2005-06-24 This book covers the assessment of people within the workplace. Written in jargon free language, it offers a guide to psychological assessment that can be used by managers in their everyday work. Each chapter will specifically cover an assessment practice and then explore the issues

surrounding it, following this discussion with a case study. Ideas for test selection, guidance on assessment centre practice and illustrations of successfully worked exercises are also included.

Management's Guide to Effective Employment Interviewing Roland T. Ramsay 1978 The intention of the manual is to provide an updated reference source for personnel professionals who want guidance on the legal implications and methodology of applied research as it relates to employment and hiring practices. Several steps are taken in personnel employment: 1) the position requirements and needed skills are determined; 2) a search is conducted within and outside the organization through position advertisement and recruitment procedures; 3) job applicants are assessed through application procedures, personal interviews, and tests; 4) the selected employee is notified, enrolled in benefit programs, and oriented to job and organization policies. Special attention must be given to laws relating to personnel selection. Employers should be aware of legislation that protects against discrimination for minorities, older persons, women, veterans, and handicapped persons. Personnel and employment interviewers must be unbiased with skills in interviewing, counseling, testing, and clerical perception.
