**Guided Math Lessons in Second Grade** Nicki Newton 2021-07-15

Guided Math Lessons in Second Grade provides detailed lessons to help you bring guided math groups to life. Based on the bestselling Guided Math in Action, this practical book offers 16 lessons, taught in a round of 3—concrete, pictorial, and abstract. The lessons are based on the priority standards and cover fluency, word problems, operations and algebraic thinking, and place value. Author Dr. Nicki Newton shows you the content as well as the practices and processes that should be worked on in the lessons, so that students not only learn the content but also how to solve problems, reason, communicate their thinking, model, use tools, use precise language, and see structure and patterns. Throughout the book, you'll find tools, templates, and blackline masters so that you can instantly adapt the lesson to your specific needs and use it right away. With the easy-to-follow plans in this book, students can work more effectively in small guided math groups—and have loads of fun along the way!

**Curriculum** John D. McNeil 2003 Exceptional in relating curriculum to teaching strategies and methods, this book includes the latest in curriculum development, practice, theory, and instructional strategies based on research in how people learn. It is designed to engage teachers in understanding curriculum, reflecting upon it and carrying out their own role in curriculum making. Constructivist pedagogy is a central element throughout the book. Attention to the political and social forces impacting the teacher's role provide information on the accountability movement, the profitization of education, changed views of learning and the influence of technology. Chapter One, Who Makes Curriculum? Roles and Levels of Decision Making, describes federal, state and local efforts to control curriculum, and provides specific cases and suggestions that show how teachers can fulfill their moral, critical and professional responsibilities within these official constraints. Chapter Two, Curriculum in the Context of School Reform, offers an in-depth, up-to-date examination of the impact of various reform policies on classroom practices. Coverage of multiculturalism, globalization, reform, assessment, and standards encourages consideration of the most recent trends and issues influencing curriculum development. For teachers and curriculum makers of kindergarten through 12th grade.

*Cultivating Math Confidence* Kristen Smith 2026-07-01 This guidebook helps you tackle roadblocks your students may be facing in their math understanding and confidence. Author, teacher, and instructional coach Kristen Smith brings together dozens of classroom-tested planning and instructional strategies that have shown measurable improvements in student proficiency. Written in an easily replicable format, these practices demonstrate the direct connections between math instruction, student behavior, and student learning, and how making these connections with your students boosts proficiency. The book is divided into sections on planning, instruction, and coaching, addressing how teachers can use math content to both build student skills and drive student engagement and motivation, ultimately unlocking confident math learners. Chapters include examples and visuals like classroom photographs, sample materials, lesson plans, pacing guides, and coaching agendas. The author balances personal classroom anecdotes with student proficiency data collected across various educational settings, grade levels, and on all types of assessment. These markers include internal outcome-based assessments, state standardized tests, and performance tasks. Designed with both classroom-level and school or district usage in mind, this resource offers strategies that can be immediately implemented or used in evaluation and professional development. Teachers, administrators, instructional coaches, and pre-service teachers in secondary mathematics courses can all benefit from this practical primer on building math proficiency among their current and future students alike.
