**Life Span Human Development** Carol K. Sigelman 2018-09-01 The third edition of Life Span Human Development helps students gain a deeper understanding of the many interacting forces affecting development from infancy, childhood, adolescence and adulthood. It includes local, multicultural and indigenous issues and perspectives, local research in development, regionally relevant statistical information, and National guidelines on health. Taking a unique integrated topical and chronological approach, each chapter focuses on a domain of development such as physical growth, cognition, or personality, and traces developmental trends and influences in that domain from infancy to old age. Within each chapter, you will find sections on four life stages: infancy, childhood, adolescence and adulthood. This distinctive organisation enables students to comprehend the processes of transformation that occur in key areas of human development. This text also includes a MindTap course offering, with a strong suite of resources, including videos and the chronological sections within the text can be easily customised to suit academic and student needs.
