**Frontiers in Software Engineering Education** Jean-Michel Bruel 2020-08-11 This book constitutes invited papers from the First International Workshop on Frontiers in Software Engineering Education, FISEE 2019, which took place during November 11-13, 2019, at the Château de Villebrumier, France. The 25 papers included in this volume were considerably enhanced after the conference and

during two different peer-review phases. The contributions cover a wide range of problems in teaching software engineering and are organized in the following sections: Course experience; lessons learnt; curriculum and course design; competitions and workshops; empirical studies, tools and automation; globalization of education; and learning by doing. The final part "TOOLS Workshop: Artificial and Natural Tools (ANT)" contains submissions presented at a different, but related, workshop run at Innopolis University (Russia) in the context of the TOOLS 2019 conference. FISEE 2019 is part of a series of scientific events held at the new LASER center in Villebrumier near Montauban and Toulouse, France.

**Handbook of Research on Next Generation Mobile Communication Systems**

Panagopoulos, Athanasios D.

2015-09-11 Anyone who has ever shopped for a new smart phone, laptop, or other tech gadget knows that staying connected is crucial. There is a lot of discussion over which service provider offers the best coverage—enabling devices to work anywhere and at any time—with 4G and LTE

becoming a pervasive part of our everyday language. The Handbook of Research on Next Generation Mobile

Communication Systems offers solutions for optimal connection of mobile devices.

From satellite signals to cloud technologies, this handbook focuses on the ways communication is being

revolutionized, providing a crucial reference source for consumers, researchers, and business professionals who want to be on the frontline of the next big development in

wireless technologies. This publication features a wide variety of research-based articles that discuss the future of topics such as bandwidth, energy-efficient power, device-to-device communication, network security and privacy, predictions for 5G communication systems, spectrum sharing and connectivity, and many other relevant issues that will influence our everyday use of technology.
