*Draining New Orleans* Richard Campanella 2023-05-03 In *Draining New Orleans*, the first full-length book devoted to “the world’s toughest drainage problem,” renowned geographer Richard Campanella recounts the epic challenges and ingenious efforts to dewater the Crescent City. With forays into geography, public health, engineering, architecture, politics, sociology, race relations, and disaster response, he chronicles the herculean attempts to “reclaim” the city’s swamps and marshes and install subsurface drainage for massive urban expansion. The study begins with a vivid description of a festive event on Mardi Gras weekend 1915, which attracted an entourage of elite New Orleanians to the edge of Bayou Barataria to witness the christening of giant water pumps. President Woodrow Wilson, connected via phoneline from the White House, planned to activate the station with the push of a button, effectively draining the West Bank of New Orleans. What transpired in the years and decades that followed can only be understood by examining the large swath of history dating back two centuries earlier—to the geological formation and indigenous occupation of this delta—and extending through the colonial, antebellum, postbellum, and Progressive eras to modern times. The consequences of dewatering New Orleans proved both triumphant and tragic. The city’s engineering prowess transformed it into a world leader in drainage technology, yet the municipality also fell victim to its own success. Rather than a story about mud and machinery, this is a history of people, power, and the making of place. Campanella emphasizes the role of determined and sometimes unsavory individuals who spearheaded projects to separate water from dirt, creating lucrative opportunities in the process not only for the community but also for themselves.

A Rouge's Gallery Robert Lockwood 2014-09-18 Nikos Rallis is the definitive high-risk investor, whose avarice entraps even the most savvy members of the international business community. He fluidly skirts legal barriers in Monaco, Switzerland, and the United States. His roguish pixie dust suffocates astute targets with outrageous promises of reward. Savvy women front his schemes, captivated only slightly by his charms but much more by the opportunity to share his gains. Perched in his Alpine headquarters, the obsessive secrecy of Switzerland and strategic purpose of Chinese foreign investment become veiled money-laundering tools for his exploitation of a defense contract in Washington’s easy-money climate. Ultimately, his chilling gallery of plundered emotions produces a fatal result that even his legendary diligence never anticipated.

**Veiled Encounters** Michael Harrigan 2008-01-01 Travel narratives were the principal source of knowledge about the lands of the Near East and the Indian Ocean Basin in 17th-century France. Claiming the authority of first-hand observation, they paradoxically rely for their legitimization on the tropes of an established literary tradition. The status of these texts remained ambiguous, not least because of their anecdotal depictions of great riches, brutality or sexual promise. Drawing on the insights of post-colonial scholarship, this study tackles a question given scant attention in previous work and suggests that beyond the hazy representation of the Orient, an opposition emerges between the threatening Near East and the indolent East Indies. Distinguishing recognizable representations from those generated by new encounters, this book questions the feasibility of cultural representation through travel, exploring a large corpus of original

sources written by French ecclesiastics, gentlemen-travellers, ambassadors and adventurers. Linguistic, religious, cultural or geographical barriers meant most travellers remained distanced from the peoples about whom they would simultaneously become authoritative. The encounter was further transformed in narratives that were intended to entertain and to satisfy the criterion of curiosité. The ‘Oriental’ that emerges is a supremely variable entity, alternately naked or veiled, barbaric or civilized, menacing or attractive.

Fleur de Lys and Calumet André Pénicaut 1988-07-30 Andre Penicaut, a carpenter, sailed with Iberville to the French province of Louisiana in 1699 and did not return to France until 1721. The book he began in the province and finished upon his return to France is an eyewitness account of the first years of the French colony, which stretched along the Gulf Coast from Florida to Texas and in the Mississippi Valley from the Balize to the Illinois country. As a ship carpenter, Penicaut was chosen as a member of several important expeditions: he accompanied Le Sueur up the Mississippi River in 1700 to present-day Minnesota, and he went with Juchereau de St. Denis on the first journey from Mobile to the Red River and overland to the Rio Grande, to open trade with the Spaniards in Mexico. Penicaut helped to build the first post in Louisiana, at Old Biloxi, and the second post on the Mobile River. Penicaut was at his best when describing the lives and social customs of the Indians of the region. He saw them in realistic terms, showing no prejudice toward their native habits. Neither were his French colleagues cast in heroic or villainous molds—though their accomplishments must strike modern readers as truly epic. When first published, *Fleur de Lys and Calumet* was a major stimulus to scholarship in the field. This new edition will be welcomed by a new generation of scholars and readers interested in the colonial history of the Deep South and the Mississippi Valley.

**The Mythic Indian** James Boucher 2024-05-29 *The Mythic Indian: The Native in French and Québécois Cultural Imaginaries* charts a genealogy of French and Québécois visions of the Amerindian. Tracing an evolution of paradigms from the sixteenth century to present, it examines how the myths of the Noble, Ignoble, and Ecological Savage as well as the Vanishing Indian and Going Native inform a variety of discourses and ways of thinking about Amerindian cultures. By analyzing mythic depictions of the Native Figure that originate at first contacts, this book demonstrates that an inextricable link exists between discourses as disparate as literature and science. This book will be of interest to scholars in French Studies, Francophone Studies, Indigenous Studies, Hemispheric Studies, Social Sciences, and Literary Studies.
