Unrepentant, Self-Affirming, Practicing Gary David Comstock 2002-06-14 Praise for Unrepentant ... : "For open-minded religious leaders, there are nuggets of enlightenment in this ecumenical array."--Publishers Weekly "Surprisingly readable as well as informative." - San Francisco Chronicle "A significant body of knowledge." - Theology Today "Publishers' catalogues are full of books on the church's view of homosexuality; Comstock here offers gay views of the church. Given the often hostile environment, he asks why gay people stay in religious institutions. Using social scientific methods, he summarizes thirty-six surveys of gay attitudes toward religious communities, including Jewish, Buddhist, Muslim, and Native American traditions. He adds data from his survey of gay people in two mainline Protestant denominations." --Religious Studies Review "Explores how each religions accepts, half-accepts, or rejects gays and lesbians and how they themselves feel about their religion. The book is also filled with personal stories of how spiritual people who discovered they are homosexual came out within their community and their congregation, and how they feel about the central figures and tenets of their belief." -- Gatherings "With its succinct, accessible language and rich collection of empirical research findings on lesbigay peoples, *Unrepentant, Self-Affirming Practicing*, would be an excellent addition to academic libraries and could be appropriately used as well in an undergraduate religion or sociology classroom." --Journal for Scientific Study of Religion>
SCM Studyguide: Church History Stephen Spencer 2013-08-27 An introduction to the study

of the ways the church has evolved in its corporate life since its birth in the first century. Special attention is given to studying its changing relationship and interaction with the surrounding societies in which it has existed. The intended readership will be those training for ministry in English speaking churches, so the studyguide will concentrate on those aspects of this subject of most relevance to this group. This means there will be greater attention to developments in the West than in the East, especially in later centuries, and to topics such as the nature of ministry, the sacraments, places of worship, authority in the church and mission. These will be examined at each period of church history, in each chapter, to provide reference points of comparison throughout the book. Each chapter will also contain a specific case study, presenting extracts of some key documents with notes, commentary and questions for discussion, to allow readers to develop skills in historical research. General discussion questions and reading lists will be provided at the end of each chapter. The final chapter will provide guidance for the study of the history of the student's own church and community.
