Cpp Exam Essential Topics Study Guide ExamREVIEW.NET 2010-03-06 To take the CPP exam one must have earned a bachelor's degree or higher from an accredited institution of higher education, plus 7 years of security experience, including at least 3 years in responsible charge of a security function. For those without a degree, 9 years of security experience would be required. The CPP exam requires that you complete 200 multiple-choice questions covering tasks, knowledge, and skills on 8 topics. Information Security is an emerging topic. As of the time of this writing it is worth 5.5% of your total score, which is no big deal if you score really well in the other subject areas. If, however, your performance is pretty marginal on average then this 5.5% could make a brutal difference. We understand that many protection professionals are strangers to the dynamic world of Information Security. Therefore we created this special guide with an attempt to help people out - to help them do well on the CPP exam. In fact, our guide is the only product on the market that fills the gap between traditional security knowledge and the various emerging issues on information security.
