*Silent No More* ReLeah Cossett Lent 2003 In this collection of essays, classroom teachers recount their personal experiences of speaking out against educational policies that they believe are harmful to students. For example, an adult educator describes the circumstances surrounding his discovery that 522 students in Birmingham, Alabama were involuntarily withdrawn from school as part of an effort to raise district test scores. The volume does not contain an index.

*School Calendar Reform* Charles Ballinger 2006-05-19 The element of time is crucial in the discussion of school reform. Modifying the school calendar is a primary reform effort that enhances the academic agenda of the schools and responds to current issues in American education.

This reviews all aspects of restructuring the school- year calendar; presents concepts and pertinent research pertaining to school calendar reform; and examines the theory of year-round education so the general public, educators, and policymakers might better understand the issues involved. It also includes: definitions of the various types of year-round education, the historical background and recent developments on calendar restructuring, responses to common questions posed by those involved in calendar reform, an explanation of program evaluation, and indicators of school quality. This book will be of interest to all stakeholders including public school officials and the general public.
