Study Guide and Workbook, an Interactive Approach for Starr and McMillan's Human

Biology, Third Edition Jane B.

Taylor 1999 Asks the student

to write all answers in this

study guide/workbook. This

workbook is interactive

because it requires students to

do things instead of just read

more material. All questions

are arranged by chapter

modules so students may skip

unassigned material. Each

module in the study guide

refers to the page numbers of

the corresponding module in

the text. There is a wide variety

of questions: multiple-choice

questions; tables to be filled in;

art to be labeled; true/false

questions requiring students to

write the correct answer if the

statement is false; thought-

provoking conceptual

questions; boldfaced terms

requiring a written definition;

list of objectives in fill-in-the-blank format; and other types of questions.

Sylvia S. Mader 2003-08 This

best-selling text emphasizes

the relationship between

humans and other living things.

Intended for an introductory

course, this text provides

students with a firm grasp of

how their bodies function and

how the human population can

become more fully integrated

into the biosphere. An Online

Learning Center, tied directly

to the text via icons, will direct

students to activities or

animations that gives a "visual
