Study Guide to Accompany Asking about Life [by] Tobin & Dusheck Lori K. Garrett 1998 This exciting first-edition text is appropriate for the one- or two- semester non-majors or mixed majors/non-majors course. Tobin and Dusheck's Asking About Life has a unique approach to biology that emphasizes questions, experimentation, and principles of biology. The first edition recently won the Texty Award from the Text and Academic Authors Association in the College Life Sciences category.

Biology Cecie Starr 1994 This streamlined book distills biology's key concepts and connects them to the lives of students with numerous timely applications including compelling new vignettes at the beginning of each chapter. Once again, Starr created new, remarkably clear illustrations to help explain complex biological concepts. As with every new edition, she continues to simplify and enliven the writing without sacrificing accuracy. The author has done a major revision of each chapter so that there is extensive updating and organizational changes to enhance the text's flow. As the following features indicate, the major thrust of the new edition is to enhance accessibility and further stimulate student interest..
