**Oxford IB Course Preparation: Economics
for IB Diploma Course Preparation** Marily
Apostolakou 2020-03-05 This book has been
created to give students and teachers a solid
introduction to the big questions in the study of

Economics. Following the IBDP curriculum and
using a concept-based approach this resource
will mean that students can begin their DP
course with a firm foundation of subject area
content. An emphasis will be placed on getting
students to make connections to their real world
observations so that the learning is authentic
and applicable outside of the classroom. The
focus for this resource is to build understanding
of the key concepts and skills and use the DP
content to introduce and articulate the bigger
concepts and skills so that students are prepared
for their Diploma course. Topics and concepts
will be introduced and covered using real world
examples, case studies and applications. Content
will be formally scaffolded to help students both
build skills and content knowledge so that they
are well prepared for their course and absorb DP

knowledge more effectively. The resource is to be used on pre-DP courses at the end of the MYP, IGCSE or other course school year before starting DP, in summer break before DP, or up to a year before DP or even during the start of the DP course to learn necessary skills. These book do not replace the course book content for DP but are in line with the latest DP syllabus updates including assessment details, subject terminology and syllabus content
