General Building Contractor B 2009 Cliff Burger 2009-08-30 2009 General Building Contractor B500 Unique Code Questions Study Guide and Practice Questions Workbook for the ICC Residential Building Contractor "B" Certification Exam N11 Based on the 2009 ICC International Building Code There are 80 questions (70 code related) on the Standard General Building Contractor "B" Exam That is equivalent to taking the exam over 6 times!! The Result: Passed All Questions are based on the ICC International Building Code Code 2012 Edition by Cliff Burger, A.S. Electronics, ICC Certifications held: B-2, B-1, E-1, M-1, P-1 Other: CompTIA A+, Network+, 30 years in the Construction Industry as a Building Contractor, Master Electrician, Electrical Contractor and Businessman. This effective tool will show you a quick and easy way to learn and remember the code while you practice for taking the Contractor's exam. It will show you a system of how to study the code most effectively with efficient use of time, and at the same time train you become an expert on finding the answers that you need to lookup in the code reference quickly and accurately. While merely reading and studying the code can help you learn. it would take a long time to master because of the extremely large amount of data, exceptions and variations it contains. It is almost impossible to have all that information flawlessly in your mind. In fact, that is why the tests are open book. The best inspectors rely on the code book, not their recollection of the code. It is extremely important to be right on the safety issues in the code.

2010 California Building Code International Code Council 2010-07-15 At the core of the California Building Code (CBC) are general building design and construction requirements set forth to safeguard life or limb, health, property, and public welfare. This makes the code a significant one for anyone entering the construction industry. The 2010 CALIFORNIA BUILDING CODE, TITLE 24 PART 2 is a powerful two-volume set that offers a fully integrated code based on the 2009 International Building Code. It concentrates on safety by regulating and controlling the design, construction, quality of materials, use and occupancy, location and maintenance of all buildings and structures and certain equipment. Contents include Title 24, Part 8 CALIFORNIA HISTORICAL BUILDING CODE, which covers provisions to provide for the preservation, restoration, rehabilitation, relocation, or reconstruction of buildings or structures designated as qualified historical buildings or properties. In addition, TITLE 24, PART 10 CALIFORNIA BUILDING STANDARDS COMMISSION is covered, targeting specific provisions of the International Existing Building Code. With such thorough coverage, this resource contains everything readers need to know about the construction requirements related to fire- and life- safety, structural safety, and access compliance. Residential Building Codes Illustrated Steven R. Winkel 2010-10-07 An easy-to-use illustrated guide to building codes for residential structures As the construction industry moves to a single set of international building codes, architects and construction professionals need an interpretive guide to understand how the building code affects the early design of specific projects. This newest addition to Wiley's series of focused guides familiarizes code users with the 2009 International Residential Code® (IRC) as it applies to residential buildings. The book provides architects, engineers, and other related building professionals with an understanding of how the International Residential Code was developed, and how it is likely to be interpreted when applied to the design and construction of residential buildings. • User-friendly visual format that makes finding the information you need quick and easy • The book's organization follows the 2009 International Residential Code itself • Nearly 900 illustrations, by architectural illustrator Steven Juroszek in the style of noted illustrator and author Frank Ching, visualize and explain the codes • Text written by experienced experts who have been instrumental in gaining acceptance for the new unified building code This book is an essential companion to the IRC for both emerging practitioners and

experienced practitioners needing to understand the new IRC.

2009 Green Residential Building Study Companion International Code Council 2010-10-29 Green construction and environmentally sound building is more important today than ever before, and it's something everyone in or entering the construction industry should be able to understand and apply. As a result, the ICC 700-2008 National Green Building Standard (NGBS) and the referenced code sections in the 2009 International Energy Conservation Code (IECC) are two codes that are gaining in relevance, making the 2009 GREEN RESIDENTIAL BUILDING STUDY COMPANION more valuable than ever before. The focus of this handy guide is the ICC 700-2008 NGBS, the first national consensus-based and ANSI-approved standard that establishes minimum criteria and definitions for the design and construction of green residential buildings, sites, subdivisions, and renovations. Designed to provide the flexibility that allows the creation of innovative approaches and techniques, the standard never loses sight of critical safety, health, and environmental requirements set forth by other applicable laws, ordinances, or codes. With this safety-first yet environmentally-savvy mindset, the study guide examines select topics of this standard, offering readers the text of the standard itself, alongside insightful, application-based commentary and detailed illustrations.
