THE EARLY GRADE READING ASSESSMENT Amber K. Gove 2011-09-28 The Early Grade Reading Assessment (EGRA) measures students' progress towards reading. EGRA gauges early literacy skills through a 15-minute individual oral assessment of five fundamental reading skills. RTI worked with education experts to develop the EGRA in 2006, and it has been piloted and implemented in more than 40 countries. This volume aims to take stock of the substantial amount of information and experience generated through the use of EGRA, and to share this knowledge with practitioners, policymakers, and international donors. Chapters cover not only particular applications of the instrument but also put EGRA in the context of broader issues and developments in literacy and education.

Global California Abraham F. Lowenthal 2009 Global California analyzes how the residents of the largest and most internationally connected of the fifty American states are affected by world trends, and recommends what they can do to enhance the benefits and mitigate the costs of global engagement.

Between Movement and Establishment Milbrey McLaughlin 2009-04-09 This volume examines how organizations advocating on behalf of youth maneuver between grassroots social movements pressing for reform and the established systems of power and authority to improve conditions for youth in urban communities.

Dangerous or Endangered? Jennifer Tilton 2010-10-03 How do you tell the difference between a "good kid" and a "potential thug"? In *Dangerous or Endangered?*, Jennifer Tilton considers the ways in which children are increasingly viewed as dangerous and yet, simultaneously, as endangered and in need of protection by the state. Tilton draws on three years of ethnographic research in Oakland, California, one of the nation's most racially diverse cities, to examine how debates over the nature and needs of young people have fundamentally reshaped politics, transforming ideas of citizenship and the state in contemporary America. As parents and neighborhood activists have worked to save and discipline young people, they have often inadvertently reinforced privatized models of childhood and urban space, clearing the streets of children, who are encouraged to stay at home or in supervised after-school programs. Youth activists protest these attempts, demanding a right to the city and expanded rights of citizenship. *Dangerous or Endangered?* pays careful attention to the intricate connections between fears of other people's kids and fears for our own kids in order to explore the complex racial, class, and gender divides in contemporary American cities.
