Kindergarten Readiness Nancy Cappelloni
2013 The hard truth? Some kids aren't as ready for kindergarten as others, dictated in part by their socioeconomic background and prior learning experiences. And unless we can provide the support these kids need early on, there's a risk they may never catch up. That's where Kindergarten Readiness steps in. It's a ready guidebook to help you equip our youngest students for formal schooling. Covering everything from involving parents to creating developmentally appropriate curriculum, this book will help you Understand the complexities of the transition to kindergarten Implement a successful program of instruction and assessment appropriate for children with various abilities Align your lessons with Common Core

kindergarten standards Assess young children's skills and abilities Tailor your program to enrich learning for all students Filled with authentic photos and tools for practice, this is one of the rare resources to combine the latest research with immediately useable ideas and professional development support. Designed for speech-language pathologists to enhance emergent literacy intervention for preschool and kindergarten-age children, this book includes 90 lessons addressing key areas of emergent literacy: phonological awareness, print concepts, alphabet knowledge, emergent writing, inferential language, and vocabulary. These lessons are suitable for use in clinical settings as well as in collaboration with classroom teachers.

Teaching English Through ELA, Mathematics, Science, and Social Studies

Long Peng 2022-07-21 Accessible and hands-on, this textbook provides a comprehensive introduction to teaching language through content, an approach known as Content-Based Language Teaching (CBLT). A content-based, language-focused approach to teaching in the disciplines is essential to serving the language and disciplinary needs of English learners (ELs) in the classroom. Guided by learning standards and informed by research, this book

demonstrates how content materials in the English Language Arts (ELA), Mathematics, Science, and Social Studies can be harnessed to develop the English language proficiency of ELs as well as advance their disciplinary knowledge and skills. Using content materials in ELA, Mathematics, Science, and Social Studies as a starting point, this textbook illustrates how to teach English as an additional language effectively by integrating language instruction with disciplinary teaching. It showcases numerous learning and instructional activities, complete with targeted language exemplified in sentential and discourse contexts, direct instruction, teacher modeling, guided and individual practices, and assessments, which are further backed up by detailed discussions of their goals, rationales, and implementation. This textbook also features a discussion of differentiation to address the varied needs of students. To further assist readers in determining how to incorporate language

instruction, Peng identifies extensive possibilities for language teaching that are based on the same content materials and beyond those targeted by sample learning activities. Each chapter ends with three types of exercises—multiple-choice questions, open-ended discussion questions, and problems of application—to bolster understanding, promote reflection, and encourage application. Complementing the book are additional online resources, including ready-to-use PowerPoints, which are available on the book’s webpage at Routledge.com/9780367521134. Covering key issues such as characteristics of effective language instruction, differentiation, and the challenges associated with CBLT, this is an essential text in TESOL methods and content-area language teaching, as well as an invaluable resource for pre-service and in-service ESL/EFL teachers and content-area teachers who are interested in furthering their students’ language and literacy development.

Implementation of the Reggio Emilia

Approach Daniela Arbizzi 2016 Abstract: The purpose of this action research study was to evaluate the effectiveness of a year-long implementation of the Reggio Emilia approach on transitional kindergarten (TK) programs of a large public school district in southern California. Teachers in 3 TK classrooms had received training from the trainer (researcher for this study) on Reggio approach prior to the onset of the school year and the beginning of this research study. The study used a multi-site case study design involving three teachers, three principals, and three parents drawn from three schools. Data was collected through interviews, an observational checklist, field notes, and reflective journal entries in three phases of the study: before, during, and after the school year. Relevant documents were also collected during each phase. Results of the year-long research documented some improvements in teaching strategies and classrooms managements as well

as factors that pose challenges to implementing the Reggio approach in TK programs: (a) teachers lack of in-depth knowledge of the Reggio approach, (b) high teacher-child ratio of TK classrooms, and (c) utilization of a hybrid curriculum that unsuccessfully attempted to merge California preschool learning foundation and the kindergarten common core standards. Other important challenges included lack of family involvement, high demand on academics that ignored inquiry-based learning, focus on imagination, and the whole child approach, which were the hallmarks of the Reggio philosophy. Children formal assessment based on school district benchmarks and mandates also contradicted Reggio emphasis on authentic assessment through documentation.

of the CCSS-ELA and CCSS-M that highlights their compatibility with developmentally appropriate practices (DAP), the instructional approach generally preferred by teachers of young children. The book begins by framing the CCSS as a distinct improvement over lengthy lists of academic content standards and as a carefully conceptualized and DAP-friendly set of curriculum guidelines. Next, the CCSS-ELA and CCSS-M for Grades K-3 are unpacked, analyzed, synthesized, and cross-referenced to key features of DAP. Finally, several "hot topic" issues—differentiating instruction to meet the needs of all learners, ensuring equitable access to the curriculum for English Language Learners, addressing assessment and accountability expectations, and educating parents and families about the CCSS and DAP—are prioritized and examined in depth. Using Developmentally Appropriate Practices to Teach the Common Core: Grades PreK-3 is a highly useful guide for both pre-service and in-

service early childhood education teachers.

Informational Texts in Pre-Kindergarten through Grade-Three Classrooms Elaine M.

Bukowiecki 2016-11-14 This book presents a myriad of instructional techniques and critical literacy strategies while serving as a professional resource for inservice and preservice primary-grade teachers as they include informational texts in their classrooms. In each of the nine chapters, there is a particular topic that guides the focus of the chapter. These themes include: a rationale for incorporating informational texts in the primary-grade classroom; a discussion of the unique features of informational texts; the selection of high quality informational materials for primary readers; critical literacy; prereading, during reading, and post reading strategies; the writing of informational texts; and inquiry projects for the primary classroom. This book also contains a

preface; an introduction; and an afterword, in which the controversy regarding the Common Core State Standards is discussed. Unique features of each chapter are specific standards reflecting the Common Core State Standards; strategies for all students to be successful with the Standards; transcriptions of lessons from primary-grade classrooms; examples of pupils' work as they interact with informational materials; and a "Give It a Try" section, where a lesson plan or a pedagogical suggestion is presented for the reader to try out in his/her own classroom.
