CPR & Choking Relief Speedy Publishing 2014-09-12 This type of guide helps a person be able to help someone who is choking or has been in an accident. The way that this works is that it shows people the way to properly resuscitate people using pressure techniques and breathing, but also how to clear the lungs of fluid that was inhaled. Another important factor of choking relief is that a person can learn how to dislodge an item forcefully from the throat of a person who is choking, thus unable to get breathe. It is the way to save a life when other options are not available.

**Civil Litigation 2019-2020** Susan Cunningham-Hill 2019-07-11 Civil Litigation introduces students to the processes and procedures involved in making and defending civil litigation claims. The text is ideal for
