Colonies are, and of right ought to be, free and independent States, that they are absolved from all allegiance to the British Crown, and that all political connection between them and the State of Great Britain is, and ought to be, totally dissolved." Although the Declaration of Independence is now considered one of the most important political documents in history, the men that drafted it did not initially favor such a move at the start of the American Revolution. Despite its assumption of governing duties, the Second Continental Congress never intended, at least initially, to become the governing body of a new nation.

Instead, it merely hoped to transform the relationship between Britain and her colonies to allow for greater self-government on their side of the Atlantic. Separation between the two was rarely favored, and this initial sentiment coalesced into the Olive Branch Petition, which sought a reasonable motion of reconciliation between George III and the colonies. It was drafted by one of Virginia's delegates, Thomas

Jefferson. By the summer of 1776, John Adams, Samuel Adams and others arguing for a formal break with Britain convinced their fellow Congressmen that the time had come to formalize their break from Britain. John, along with Thomas Jefferson, Benjamin Franklin, Roger Sherman and Robert Livingston, were appointed to draft the announcement informing Britain of their intentions. Together they completed the rough draft of the preamble on May. The committee then wanted John to complete the document, but he felt that Jefferson was a better writer. Ultimately the two men worked together to create Declaration of Independence in late June, with Adams providing much of the legal insight and Jefferson the prose. As a document, the Declaration justified the call for independence by listing grievances against the King and anchoring them with natural and legal rights, which formed the most memorable lines in the document. In addition to summarizing Jefferson's political philosophy, the Declaration was an amalgamation of the words and thoughts of famous political philosophers of the previous century, including Montesquieu and John Locke. Regardless, Jefferson is now remembered as the author of one of the English language's most timeless passages, "We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness." Throughout June of 1776, Jefferson worked in Philadelphia within short walking distance of the Congress, writing the first rough draft of the Declaration of Independence. In substance, it mostly resembled the final document, with an emphasis on natural rights and self-government. Throughout the editing process, it was reduced by nearly a quarter through the removal of sentences and redundancies. Congress approved of the Declaration of Independence on July 2, 1776 but returned it to Adams and Jefferson for some fine tuning before giving it their final approval two days later. Though Independence Day is celebrated on July 4, Adams wrote to Abigail on July 3, 1776 in the belief that it would be July 2 that would be remembered as the important day. The Declaration of Independence: The History and Legacy of America's Founding Document chronicles the history that brought about America's formal break from Great Britain. Along with pictures and a bibliography, you will learn about the Declaration of Independence like never before, in no time at all.

Pen to Paper Karen Holt 2025-10-30 Give me liberty or give me death. -Patrick Henry Studying American history offers each of us a front-row seat to the ways in which God brought to life the country known as the United States. During the American Revolution, the thirteen colonies faced off against the world's greatest superpower of that day-Great Britain. With respects to the Colonial Navy, some might compare its participation in this conflict to that of a determined fisherman going after Moby Dick in a rowboat. The odds were definitely stacked in Moby's (England's) favor. Divine Providence, however, had other ideas regarding the outcome and eventually brought victory to the colonists.

The Declaration of Independence in America William Hartley 2026-02-06 On July 4, 1776, fifty-six men signed a document that would change the world. The Declaration of Independence proclaimed revolutionary principles of equality and liberty that continue to shape democratic movements worldwide—yet its authors lived in a society built on slavery and inequality. This comprehensive narrative explores how thirty-five words—"all men are created equal"—became both America's defining creed and its most persistent challenge. From the heated debates in the Continental Congress to Lincoln's Gettysburg Address, from Frederick Douglass's searing critique to the document's influence on global human rights, this book traces the Declaration's remarkable journey through American and world history. It reveals the courage of signers who risked execution for treason, the hypocrisy of slaveholders proclaiming liberty, and the generations of Americans who have invoked the Declaration's promises in struggles for justice and equality. Drawing on historical research and examining the physical document's dramatic preservation through wars and near-destruction, this book demonstrates why the Declaration remains vitally relevant today. It is the story of an unfinished promise—one that each generation must work to fulfill. Perfect for history enthusiasts, students, and anyone seeking to understand America's founding principles and their continuing power to inspire and challenge.

20 Fun Facts About the Declaration of Independence Heather Moore Niver 2013-08-01 The Declaration of Independence is one of the most famous letters in human history. Thomas Jefferson and the other Founding Fathers created this important document to announce their freedom from England. It was one of the driving forces that sparked the Revolutionary War and led to the formation of the United States. But there's so much more to learn about this historic document that isn't in typical history books. The age-appropriate text in this book is paired with little-known fun facts, fascinating photographs and illustrations, and helpful graphic organizers to show just how interesting this pivotal document really is.

Paper Plays A Role In History Arturo Fontelroy 2021-04-27 Together in one book, the two most important documents in United States history from the enduring legacy of America's Founding Fathers including Thomas Jefferson, James Madison, and Alexander Hamilton. The Declaration of Independence was the promise of a representative government; the Constitution was the fulfillment of that promise. On July 4, 1776, the Second Continental Congress issued a unanimous declaration: the thirteen North American colonies would be the thirteen United States of America, free and independent of Great Britain. Drafted by Thomas Jefferson, the Declaration set forth the terms of a new form of government with the following words: "We hold these Truths to be self-evident, that all men are created equal, that they are endowed with certain unalienable Rights, that among these are Life, Liberty, and the Pursuit of Happiness." Framed in 1787 and in effect since March 1789, the Constitution of the United States of America fulfilled the promise of the Declaration by establishing a republican form of government with separate executive, legislative, and judicial branches. The first ten amendments, known as the Bill of Rights, became part of the Constitution on December 15, 1791. Among the rights guaranteed by these amendments are freedom of speech, freedom of the press, freedom of religion, and the right to trial by jury. Written so that it could be adapted to endure for years to come, the Constitution has been amended only seventeen times since 1791 and has lasted longer than any other written form of government.

Our Paper 1924

United States Declaration of Independence The United States of America Congress Assembled 2014-10-01 The Declaration of Independence is the usual name of a statement adopted by the Continental Congress on July 4, 1776, which announced that the thirteen American colonies, then at war with Great Britain, regarded themselves as thirteen newly independent sovereign states, and no longer a part of the British Empire. Instead they formed a new nation—the United States of America. John Adams was a leader in pushing for independence, which was unanimously approved on July 2. A committee of five had already drafted the formal declaration, to be ready when Congress voted on independence. The term "Declaration of Independence" is not used in the document itself. Adams persuaded the committee to select Thomas Jefferson to compose the original draft of the document, which Congress would edit to produce the final version. The Declaration was ultimately a formal explanation of why Congress had voted on July 2 to declare independence from Great Britain, more than a year after the outbreak of the American Revolutionary War. The national birthday, Independence Day, is celebrated on July 4, although Adams wanted July 2. After ratifying the text on July 4, Congress issued the Declaration of Independence in several forms. It was initially published as the printed Dunlap broadside that was widely distributed and read to the public. The source copy used for this printing has been lost, and may have been a copy in Thomas Jefferson's hand. Jefferson's original draft, complete with changes made by John Adams and Benjamin Franklin, and Jefferson's notes of changes made by Congress, are preserved at the Library of Congress. The most famous version of the Declaration, a signed copy that is popularly regarded as the official document, is

displayed at the National Archives in Washington, D.C. This engrossed copy was ordered by Congress on July 19, and signed primarily on August 2. The sources and interpretation of the Declaration have been the subject of much scholarly inquiry. The Declaration justified the independence of the United States by listing colonial grievances against King George III, and by asserting certain natural and legal rights, including a right of revolution. Having served its original purpose in announcing independence, references to the text of the Declaration were few for the next four score years. Abraham Lincoln made it the centerpiece of his rhetoric (as in the Gettysburg Address of 1863), and his policies. Since then, it has become a well-known statement on human rights, particularly its second sentence: We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness. This has been called "one of the best-known sentences in the English language," containing "the most potent and consequential words in American history." The passage came to represent a moral standard to which the United States should strive. This view was notably promoted by Abraham Lincoln, who considered the Declaration to be the foundation of his political philosophy, and argued that the Declaration is a statement of principles through which the United States Constitution should be interpreted. It provided inspiration to numerous national declarations of independence throughout the world. Historian David Armitage, after examining the influence of the American "Declaration" on over 100 other declarations of independence, says: The American Revolution was the first outbreak of the contagion of sovereignty that has swept the world in the centuries since 1776. Its influence spread first to the Low Countries and then to the Caribbean, Spanish America, the Balkans, West Africa, and Central Europe in the decades up to 1848... Declarations of independence were among the primary symptoms of this contagion of sovereignty.
