Les Éclats de vie d'Edmond Cros Annie Bussière Cros 2021-05-18 Ces textes précieux célèbrent des moments choisis de la vie d'Edmond Cros (1931-2019), professeur émérite de l'université Paul-Valéry de Montpellier et cofondateur de la Sociocritique. Gardés jusqu'ici au secret de la mémoire et de rares confidences, ces retours sur soi à la fois intimes et adressés s'attachent à des souvenirs émouvants de l'enfance, aux moments historiques traversés, à quelques étapes formatrices de la vie intellectuelle, finalement aux épreuves et à l'engagement d'un enfant ardéchois d'origine à la fois mythique et modeste, et à son ascension sociale par l'étude et la littérature.

Comment Survivre À Un Traumatisme Émotionnel Et Au Cancer M'a Aidé Plus

Tard Dans La Vie En Prose Mario Fontenla 2019-01-10 The idea to write this book was born out of my empathy for others who are suffering like I have. After traveling so much during my youth and suffering from the emotional trauma of constantly being harshly bullied, I finally settled in New York City for many years, where I started volunteering for the Red Cross about ten years ago. This launched my whole career in translation and interpretation and made me start to write poems after living and surviving cancer.

A Thirst for Wine and War Adam D. Zientek 2024-02-13 Beginning in the fall of 1914, every French soldier on the Western Front received a daily ration of wine from the army. At first it was a modest quarter litre, but by 1917 it had increased to the equivalent of a full bottle each day. The wine ration was intended to sustain morale in the trenches, making the men more willing to endure suffering and boredom. The army also supplied soldiers with doses of distilled alcohol just before attacks to increase their ferocity and fearlessness. This strategic distribution of alcohol was a defining feature of French soldiers' experiences of the war and amounted to an experimental policy of intoxicating soldiers for military ends. *A Thirst for Wine and War* explores the French army's emotional and behavioural conditioning of soldiers through the distribution of a mind-altering drug that was later hailed as one of the army's "fathers of victory." The daily wine ration arose from an unexpected set of factors including the demoralization of trench warfare, the wine industry's fear of losing its main consumers, and medical consensus about the benefits of wine drinking. The army's related practice of distributing distilled alcohol to embolden soldiers was a double-edged sword, as the men might become unruly. The army implemented regulations and surveillance networks to curb men's drinking behind the lines, in an attempt to ensure they only drank when it was useful to the war effort. When morale collapsed in spring 1917, the army lost control of this precarious system as drunken soldiers mutinied in the thousands. Discipline was restored only when the army regained command of soldiers' alcohol consumption. Drawing on a range of archives, personal

narratives, and trench journals, *A Thirst for Wine and War* shows how the French army's intoxication of its soldiers constituted a unique exercise of biopower deployed on a mass scale.
