*Academic Writing Skills 2 Teacher's Manual* Peter Chin 2012-05-02 Academic Writing Skills is a three-volume essay writing course for students that develops students' abilities to compose college-level essays. Academic Writing Skills 2 takes students through a step-by-step process of writing expository, argumentative, and compare and contrast essays. It is appropriate for students wishing to focus on specific essay types that require the use and integration of sources to complete academic writing tasks.

**Psychology** Wayne Weiten 2004 Since the First Edition of this book appeared, professors have praised its visual presentation of concepts, accessible writing style, and solid research-based scholarship. PSYCHOLOGY: THEMES AND VARIATIONS is about the ideas and concepts behind the research studies. His straightforward style gets students to contemplate open-ended questions, examine their assumptions, and apply psychological concepts to their own lives. Wayne Weiten surveys psychology's broad range of content with three aims: to illuminate the process of research and its intrinsic relationship to application; to show both the unity and diversity of the subject, and to invite students to the study of psychology by respecting their ability to master its fundamental concepts. Integrative themes--including empiricism, theoretical diversity, sociohistorical contexts, multifactorial causation, cultural heritage, heredity and environment, and subjectivity of experience--are woven throughout the text to provide connections among the different areas of research in psychology. The book's dynamic, teaching-oriented illustration program further enhances these themes. Weiten reinforces concepts through exercises that appear at the end of every chapter. At the same time, the author presents topics in a hierarchical manner, giving students handles they can use to prioritize concepts within the chapter.

Essential Study Skills Linda Wong 2000 Essential Study Skills provides in-depth coverage of study skills with ample room for practice and application through a step-by-step, supportive approach. The Fifth Edition includes the contemporary working memory model, helping you take control of your learning potential. Online exercises and case studies from the student website also provide extra practice and application of lessons learned. Through models, exercises, case studies, and readings, Essential Study Skills shows you that academic success is a product of skills and behaviors you can acquire, customize, and effectively apply. **English for Science Communication** Jack Pun 2025-11-10 English for Science Communication introduces English-language knowledge and skills for scientific communication in a range of local and international contexts. It develops students' ability to locate and critically read a variety of scientific texts and appropriately communicate, through speaking and writing, the findings of scientific projects to both specialist and non-specialist audiences. The book introduces students to common rhetorical structures used in authentic scientific communication, as well as the typical vocabulary and grammar needed to express these structures. Students will learn to evaluate and report the findings of a scientific study using a range of genres, modes, and media formats, including written scientific reports and multimodal scientific documentaries. Introducing how to understand, present, write, and communicate scientific information in English, this practical guide is essential for all students using English in their science degrees, including as a second language.

Law Express: Intellectual Property Law 4th edn David Bainbridge 2014-08-01 The Law Express series is designed to help you revise effectively. This book is your guide to understanding essential concepts, remembering and applying key legislation and making your answers stand out!

**A Guide to In-session English for Academic Purposes** Neil Adam Tibbetts 2023-05-02 A hands-on guide for practitioners, this book prepares instructors to teach in-session English for Academic Purposes (ISEAP) higher education courses. As university cohorts become more diverse, there is demand for in-session EAP courses not only to support international students, but also increasingly as a provision for all students. This informative resource explores the varying formats of ISEAP courses and how they are embedded within and alongside students' degree programmes in the United Kingdom and beyond. In accessible chapters, authors Neil Adam Tibbetts and Timothy Chapman present illuminating findings drawn from interviews conducted with experts in the field and highlight the challenges that students and practitioners face. Avoiding prescriptive recommendations, Tibbetts and Chapman address different models and contexts of ISEAP courses at the university level and offer guidance and tools for practice. Covering key topics such as pedagogies, logistical challenges, and the wider university context, this book not only provides a roadmap to the often ill-defined but essential domain of ISEAP but also provokes questions and ideas for further reflection, guiding the reader towards a deeper understanding of their role and development in context. Engaging and inviting, Tibbetts and Chapman's helpful text is a necessary resource for teachers to design and lead successful ISEAP courses.

Teaching Composition/teaching Literature Michelle M. Tokarczyk 2003 Most faculty members of college and university English departments would acknowledge frequent interdepartmental tensions between faculty members who specialize in literature and those who specialize in composition. Yet many literature faculty regularly teach composition and/or have administrative responsibilities in writing programs and writing centers. Teaching Composition/Teaching Literature: Crossing Great Divides is an anthology of articles by faculty who reject the low status commonly assigned to composition and articulate ways to combine literature and composition as teachers and scholars. Ultimately, these essays signal possible ways to repair the rift between the divisions.--Back cover.

Teaching a Lexis-based Academic Writing Course Lawrence J. Zwier 2006 Teaching a Lexis-Based

Academic Writing Course is a companion to Building an Academic Vocabulary, which was written for students who need to develop college-level vocabulary skills. Building Academic Vocabulary (0-472-08589-1) helps students develop lexical precision as they work in such often-exercised modes as cause-effect, general description, description of processes, and comparison/contrast. Teaching a Lexis-Based Academic Writing Course will help instructors use Building an Academic Vocabulary more effectively, but it can also be used as a companion to any writing text and by instructors who want their writing course to have more of a focus on vocabulary. Each chapter includes additional practice exercise and five additional quizzes on collocations and common phrases, related forms, and additional vocabulary. This resource provides instructors with a valuable tool for helping students develop precision and fluency in their academic writing.
